The Death of Expertise Tom Nichols 2017-02-01 Technology and increasing levels of education have exposed people to more information than ever before. These societal gains, however, have also helped fuel a surge in narcissistic and misguided intellectual egalitarianism that has crippled informed debates on any number of issues. Today, everyone knows everything: with only a quick trip through WebMD or Wikipedia, average citizens believe themselves to be on an equal intellectual footing with doctors and diplomats. All voices, even the most ridiculous, demand to be taken with equal seriousness, and any claim to the contrary is dismissed as undemocratic elitism. Tom Nichols' The Death of Expertise shows how this rejection of experts has occurred: the openness of the internet, the emergence of a customer satisfaction model in higher education, and the transformation of the news industry into a 24-hour entertainment machine, among other reasons. Paradoxically, the increasingly democratic dissemination of information, rather than producing an educated public, has instead created an army of ill-informed and angry citizens who denounce intellectual achievement. When ordinary citizens believe that no one knows more than anyone else, democratic institutions themselves

are in danger of falling either to populism or to technocracy or, in the worst case, a combination of both. An update to the 2017 breakout hit, the paperback edition of *The Death of Expertise* provides a new foreword to cover the alarming exacerbation of these trends in the aftermath of Donald Trump's election. Judging from events on the ground since it first published, *The Death of Expertise* issues a warning about the stability and survival of modern democracy in the Information Age that is even more important today.

Islam Karen Armstrong 2002-08-06 No religion in the modern world is as feared and misunderstood as Islam. It haunts the popular imagination as an extreme faith that promotes terrorism, authoritarian government, female oppression, and civil war. In a vital revision of this narrow view of Islam and a distillation of years of thinking and writing about the subject, Karen Armstrong's short history demonstrates that the world's fastest-growing faith is a much more complex phenomenon than its modern fundamentalist strain might suggest.

1001 Inventions Salim T. S. Al-Hassani 2012 "Imagine it is the seventh century. As most of Europe continues its descent into a long period of intellectually dormancy, a quiet yet powerful academic revolution is erupting in another corner of the world. Over the next centuries, the geniuses of Muslim society will thrust the boundaries of knowledge forward to such a degree that their innovations still shape civilizations to this day. The staggering achievements of these men and women influenced the development of modern mathematics, science, engineering, and medicine. 1001 Inventions: The Enduring Legacy of Muslim Civilization sheds new light on this golden era that was once lost to so many, and celebrates the heritage that we all share"--P. [4] of cover.

Cultural Competence in Caring for Muslim Patients G.Hussein Rassool 2014-05-07 To meet the care needs of today's diverse patient community, healthcare professionals must learn to care in environments comprising different worldviews, communication styles and expectations. To meet this challenge, it is essential that they operate from a solid foundation of knowledge, based on high standards for cultural competence in nursing practice. Cultural Competence in Caring for Muslim Patients is designed for nurses and allied healthcare professionals. It offers a deeper insight into ways in which the Islamic faith is intertwined with patient care, and explores approaches with which to effectively address the varying healthcare requirements of a growing and diverse Muslim community. Following a clear and accessible format, the book discusses key issues including: - The identity and religious beliefs of Muslims - The ethical dimension in caring - Understanding the Muslim family system - Health considerations during fasting and pilgrimage (Hajj) What's more, case studies, activities and discussion questions throughout actively support learning and reflective practices. This insightful guide will prove a valuable asset for any nurse or healthcare professional looking to develop their understanding of how to deliver culturally compassionate and congruent care.

Global Trends 2030 National Intelligence Council (U.S.) 2012 This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing

the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.
