Elements of Argument Annette T. Rottenberg 2008-07-01 Elements of Argument was the first text based on the accessible Toulmin model — the model of argument that fits best with the methods and goals of college composition. It combines a thorough argument text on critical thinking, reading, writing, and research with an extensive reader on both current and timeless controversial issues. Elements of Argument presents everything students need to analyze, research, and write arguments. The clearest writing and research coverage of any argument textbook has been re-invigorated to make it even more accessible. And it now has an array of provocative new topics — all to help students stake their claim in argument.

Last Child in the Woods Richard Louv 2008-04-22 "The children and nature movement is fueled by this fundamental idea: the child in nature is an endangered species, and the health of children and the health of the Earth are inseparable." —Richard Louv, from the new edition In his landmark work Last Child in the Woods, Richard Louv brought together cutting-edge studies that pointed to direct exposure to nature as essential for a child's healthy physical and emotional development. Now this new edition updates the growing body of evidence linking the lack of nature in children's lives and the rise in obesity, attention disorders, and depression. Louv's message has galvanized an international back-to-nature campaign to "Leave No Child Inside." His book will change the way you think about our future and the future of our children. "[The] national movement to 'leave no child inside' . . . has been the focus of Capitol Hill hearings, state legislative action, grass-roots projects, a U.S. Forest Service initiative to get more children into the woods and a national effort to promote a 'green hour' in each day. . . . The increased activism has been partly inspired by a best-selling book, Last Child in the Woods, and its author, Richard Louv." —The Washington Post "Last Child in the Woods, which describes a generation so plugged into electronic diversions that it has lost its connection to the natural world, is helping drive a movement quickly flourishing across the nation." —The Nation's Health "This book is an absolute must-read for parents." —The Boston Globe Now includes A Field Guide with 100 Practical Actions We Can Take Discussion Points for Book Groups, Classrooms, and Communities Additional Notes by the Author New and Updated Research from the U.S. and Abroad

The Structure of Argument Annette T. Rottenberg 2014-10-20 The Structure of Argument covers critical thinking, reading, writing, and research. Concise but thorough, it includes questions, exercises, writing assignments, and a full semester's worth of readings—everything students need in an affordable, compact format. Presenting Aristotelian and Rogerian as well as Toulmin argument, The Structure of Argument has been totally revised, with more than three-quarters of the readings new (including many multimodal selections available online at no extra charge), new coverage of multimodal argument, expanded treatment of key rhetorical concepts, a fresh new design, and additional support for research. Its emphasis on Toulmin argument makes Structure highly teachable, since the approach fits with the goals of the composition course.

We Need to Talk Celeste Headlee 2017-09-19 "WE NEED TO TALK." In this urgent and insightful book, public radio journalist Celeste Headlee shows us how to bridge what divides us--by having real conversations BASED ON THE TED TALK WITH OVER 10 MILLION VIEWS NPR's Best Books of 2017 Winner of the 2017 Silver Nautilus Award in Relationships & Communication "We Need to Talk is an important read for a conversationally-challenged, disconnected age. Headlee is a talented, honest storyteller, and her advice has helped me become a better spouse, friend, and mother." (Jessica Lahey, author of New York Times bestseller The Gift of Failure) Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our

political landscape, but the erosion of our conversational skills as a society lies with us as individuals. And the only way forward, says Headlee, is to start talking to each other. In *We Need to Talk*, she outlines the strategies that have made her a better conversationalist—and offers simple tools that can improve anyone's communication. For example: BE THERE OR GO ELSEWHERE. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. CHECK YOUR BIAS. The belief that your intelligence protects you from erroneous assumptions can end up making you more vulnerable to them. We all have blind spots that affect the way we view others. Check your bias before you judge someone else. HIDE YOUR PHONE. Don't just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you're struggling to communicate with your kid's teacher at school, an employee at work, or the people you love the most—Headlee offers smart strategies that can help us all have conversations that matter.

Placing Outer Space Lisa Messeri 2016-09-22 In *Placing Outer Space* Lisa Messeri traces how the place-making practices of planetary scientists transform the void of space into a cosmos filled with worlds that can be known and explored. Making planets into places is central to the daily practices and professional identities of the astronomers, geologists, and computer scientists Messeri studies. She takes readers to the Mars Desert Research Station and a NASA research center to discuss ways scientists experience and map Mars. At a Chilean observatory and in MIT's labs she describes how they discover exoplanets and envision what it would be like to inhabit them. Today's planetary science reveals the universe as densely inhabited by evocative worlds, which in turn tells us more about Earth, ourselves, and our place in the universe.

The Field of Blood Joanne B. Freeman 2018-09-11 The previously untold story of the violence in Congress that helped spark the Civil War In *The Field of Blood*, Joanne B. Freeman recovers the long-lost story of physical violence on the floor of the U.S. Congress. Drawing on an extraordinary range of sources, she shows that the Capitol was rife with conflict in the decades before the Civil War. Legislative sessions were often punctuated by mortal threats, canings, flipped desks, and all-out slugfests. When debate broke down, congressmen drew pistols and waved Bowie knives. One representative even killed another in a duel. Many were beaten and bullied in an attempt to intimidate them into compliance, particularly on the issue of slavery. These fights didn't happen in a vacuum. Freeman's dramatic accounts of brawls and thrashings tell a larger story of how fisticuffs and journalism, and the powerful emotions they elicited, raised tensions between North and South and led toward war. In the process, she brings the antebellum Congress to life, revealing its rough realities—the feel, sense, and sound of it—as well as its nation-shaping import. Funny, tragic, and rivetingly told, *The Field of Blood* offers a front-row view of congressional mayhem and sheds new light on the careers of John Quincy Adams, Henry Clay, and other luminaries, as well as introducing a host of lesser-known but no less fascinating men. The result is a fresh understanding of the workings of American democracy and the bonds of Union on the eve of their greatest peril.

The Academic Writer Lisa Ede 2016-10-14 *The Academic Writer* is a brief guide that prepares students for any college writing situation through a solid foundation in rhetorical concepts. By framing the reading and composing processes in terms of the rhetorical situation, Lisa Ede gives students the tools they need to make effective choices. With an emphasis on analysis and synthesis, and making and supporting claims, students learn to master the moves of academic writing across mediums. A new chapter on "Strategies for Multimodal Composing" and advice on writing in a multimodal environment throughout the text help instructors take students into new contexts for reading and composing. New coverage of drafting, editing, and revising, and updated coverage of academic research—including the 2016 MLA guidelines—ensures that students are supported at all stages of the writing process.

Everything's an Argument with Readings Andrea A. Lunsford 2013-12-01 "This best-selling combination rhetoric and thematically organized reader shows students how to analyze all kinds of arguments, not just essays and editorials, but clothes, smartphone apps, ads, and Web site designs, and then how to use what they learn to write their own effective arguments. Newly streamlined and featuring e-Pages that take argument online, its signature engaging, informal, and jargon-free instruction emphasizes cultural currency, humor,

and visual argument."--Back cover.

Reconnecting Reading and Writing Alice S. Horning 2013-09-06 *Reconnecting Reading and Writing* explores the ways in which reading can and should have a strong role in the teaching of writing in college. *Reconnecting Reading and Writing* draws on broad perspectives from history and international work to show how and why reading should be reunited with writing in college and high school classrooms. It presents an overview of relevant research on reading and how it can best be used to support and enhance writing instruction.

Rhetorical Style Jeanne Fahnestock 2011-10-12 A comprehensive guide to the language of argument, *Rhetorical Style* offers a renewed appreciation of the persuasive power of the English language. Drawing on key texts from the rhetorical tradition, as well as on newer approaches from linguistics and literary stylistics, Fahnestock demonstrates how word choice, sentence form, and passage construction can combine to create effective spoken and written arguments. With examples from political speeches, non-fiction works, and newspaper reports, *Rhetorical Style* surveys the arguer's options at the word, sentence, interactive, and passage levels, and illustrates the enduring usefulness of rhetorical stylistics in analyzing and constructing arguments.

Black Movie Danez Smith 2017-01-31 "These harrowing poems make montage, make mirrors, make elegiac biopic, make 'a dope ass trailer with a hundred black children / smiling into the camera & the last shot is the wide mouth of a pistol.' That's no spoiler alert, but rather, Smith's way—saying & laying it beautifully bare. A way of desensitizing the reader from his own defenses each time this long, black movie repeats."—Marcus Wicker "Danez Smith's *BLACK MOVIE* is a cinematic tour-de-force that lets poetry vie with film for the honor of which medium can most effectively articulate the experience of Black America."—Rain Taxi

The New Jim Crow Michelle Alexander 2020-01-07 Named one of the most important nonfiction books of the 21st century by *Entertainment Weekly*, *Slate*, *Chronicle of Higher Education*, *Literary Hub*, *Book Riot*, and *Zora* A tenth-anniversary edition of the iconic bestseller—"one of the most influential books of the past 20 years," according to the *Chronicle of Higher Education*—with a new preface by the author "It is in no small part thanks to Alexander's account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system." —Adam Shatz, *London Review of Books* Seldom does a book have the impact of Michelle Alexander's *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the *New York Times* bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander's unforgettable argument that "we have not ended racial caste in America; we have merely redesigned it." As the *Birmingham News* proclaimed, it is "undoubtedly the most important book published in this century about the U.S." Now, ten years after it was first published, *The New Press* is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

The Essay Connection Lynn Z. Bloom 2000-03 This revised text is designed to emphasize critical thinking, reading and writing. Twenty nine new selections have been chosen for their cultural diversity and thematic connections. Four chapters on the writing process and extensive writing apparatus.

The Rhetoric of Reason James Crosswhite 2012-11-01 Responding to skeptics within higher education and critics without, James Crosswhite argues powerfully that the core of a college education should be learning to write a reasoned argument. A trained philosopher and director of a university-wide composition program, Crosswhite challenges his readers—teachers of writing and communication, philosophers, critical theorists, and educational administrators—to reestablish the traditional role of rhetoric in education. To those who have lost faith in the abilities of people to reach reasoned mutual agreements, and to others who have attacked the right-or-wrong model of formal logic, this book offers the reminder that the rhetorical tradition has always viewed argumentation as a dialogue, a response to changing situations, an exchange of persuading, listening, and understanding. Crosswhite's aim is to give new purpose to writing instruction and to students' writing, to reinvest both with the deep ethical interests of the rhetorical tradition. In laying out the elements of argumentation, for example, he shows that claiming, questioning, and giving reasons are not simple elements of formal logic, but communicative acts with complicated ethical features. Students must learn not only how to construct an argument, but the purposes, responsibilities, and consequences of engaging in one.

Crosswhite supports his aims through a rhetorical reconstruction of reason, offering new interpretations of Plato and Aristotle and of the concepts of reflection and dialogue from

early modernity through Hegel to Gadamer. And, in his conclusion, he ties these theoretical and historical underpinnings to current problems of higher education, the definition of the liberal arts, and, especially, the teaching of written communication.

Bring Back the Bureaucrats John Dilulio 2014-09-02 In Bring Back the Bureaucrats, John J. Dilulio Jr., one of America's most respected political scientists and an adviser to presidents in both parties, summons the facts and statistics to show us how America's big government actually works and why reforms that include adding a million more people to the federal workforce by 2035 might actually help to slow government's growth while improving its performance. Starting from the underreported reality that the size of the federal workforce hasn't increased since the early 1960s even though the federal budget has skyrocketed and the number of federal programs has ballooned, Bring Back the Bureaucrats tells us what our elected leaders won't: there simply are not enough federal workers to do work that's critical to our democracy. Government in America, Dilulio reveals, is Leviathan by Proxy, a grotesque form of debt-financed big government that guarantees bad government: • Washington relies on state and local governments, for-profit firms, and nonprofit organizations to implement federal policies and programs. Big-city mayors, defense industry contractors, nonprofit executives and other federal proxies lobby incessantly for more federal spending. • The proxy system chokes on chores as distinct as cleaning up toxic waste sites, caring for hospitalized veterans, collecting taxes, handling plutonium, and policing more than \$100 billion a year in "improper payments." • The lack of enough competent, well-trained federal civil servants figured in the failed federal response to Hurricane Katrina and in the troubled launch of Obamacare "health exchanges," Bring Back the Bureaucrats is further distinguished by the presence of E. J. Dionne Jr. and Charles Murray, two of the most astute voices from the political left and right, respectively, who offer their candid responses to Dilulio at the end of the book.

Thank You for Arguing Jay Heinrichs 2013 An introduction to the art of rhetoric explains how persuasion can profoundly influence personal and professional successes and reveals an array of techniques employed by such personalities as Aristotle and Winston Churchill.

Argumentation and Debate Austin J. Freeley 2013-01-01 Widely praised, ARGUMENTATION AND DEBATE, 13E, uses a clear, concise, and engaging presentation that makes even complex material easy for students to understand. The authors have adapted the text over the years to match changing practices in debate and teaching while preserving classical and conventional approaches to learning debate. This edition retains its rhetorical roots with a flexible tone open to a diverse array of debate styles that is appropriate in the contemporary context. It values the importance of inclusion and sensitivity to differences of culture, gender, orientation, class and other factors as they impact communicative choices and argumentation. The authors have a preference for team topic evidence-based policy debate; however, the text strives to offer viable tools for a wide range of readers interested in improving their critical thinking for reasoned decision making. Writing Arguments John D. Ramage 2016-07-13 For courses in Argument and Research. This version of Writing Arguments: A Rhetoric with Readings, Brief has been updated to reflect the 8th edition of the MLA Handbook (April 2016) * Teach students to read arguments critically and to produce effective arguments Writing Arguments: A Rhetoric with Readings, Brief Edition, Tenth Edition integrates four different approaches to argument: the enthymeme as a logical structure, the classical concepts of logos, pathos, and ethos, the Toulmin system, and stasis theory. Focusing on argument as dialogue in search of solutions instead of a pro-con debate with winners and losers, it is consistently praised for teaching the critical thinking skills needed for writing arguments. Major assignment chapters each focus on one or two classical stases (e.g. definition, resemblance, causal, evaluation, and policy). Each concept is immediately reinforced with discussion prompts, and each chapter ends with multiple comprehensive writing assignments. This brief version contains exemplary readings within the chapters but excludes the anthology included in the comprehensive version. Also available in a Comprehensive version (032190673X) and a Concise version (0321964284) which is a redaction of the Brief edition. * The 8th Edition introduces sweeping changes to the philosophy and details of MLA works cited entries. Responding to the increasing mobility of texts, MLA now encourages writers to focus on the process of crafting the citation, beginning with the same questions for any source. These changes, then, align with current best practices in the teaching of writing which privilege inquiry and critical thinking over rote recall and rule-following. "

Legal Writing Robert Edwin Bacharach 2020 "Effective legal writing calls not only for artistry but also for scientific understanding. Legal wordsmiths turned words and phrases into finely tuned aphorisms, just as van Gogh and Matisse turned blank canvases into brilliant combinations of color and light. Unlike most forms of art, however, effective legal writing

serves primarily to explain and persuade. You cannot easily explain or persuade without considering how your intended audience will process your words. Thinking about the intended reader is natural. Is your brief going to a court overwhelmed by filings? Is the assigned judge likely to read the brief once or to reread it many times? Are opinions by the assigned judge long or short?"--

Legends, Lore, and Lies Joseph Calabrese 2007 Legends, Lore, and Lies presents critical readings in five sections—urban legends, alternative medicine, the media's role in public gullibility, psychics and the paranormal, and pseudo science—to demonstrate the importance of critical examination and the differences between an opinion or assertion and a supported claim.

Rhetorical Grammar Martha Kolln 2003 Rhetorical Grammar encourages writers to recognize and use the structural and stylistic choices available to them and to understand the rhetorical effects those choices can have on their readers. Rhetorical Grammar is a writer's grammar - a text that presents grammar as a rhetorical tool, avoiding the do's and don'ts so long associated with the study of grammar. It reveals to student writers the system of grammar that they know subconsciously and encourages them to use that knowledge to understand their choices as writers and the effects of those choices on their readers. Besides providing key strategies for revision, Rhetorical Grammar presents systematic discussions of reader expectation, sentence rhythm and cohesion, subordination and coordination, punctuation, modifiers, diction, and other principles. Studying grammar from this rhetorical point of view defines the study of language as an intellectual exercise designed to open up students' minds to the versatility, beauty, and possibilities of language.

Educated Tara Westover 2018-02-20 #1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University "Extraordinary . . . an act of courage and self-invention."—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA'S FAVORITE BOOKS OF THE YEAR • BILL GATES'S HOLIDAY READING LIST • FINALIST: National Book Critics Circle's Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara's older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she'd traveled too far, if there was still a way home. "Beautiful and propulsive . . . Rhetoric and Composition Steven Lynn 2010-09-30 Rhetoric and composition is an academic discipline that informs all other fields in teaching students how to communicate their ideas and construct their arguments. It has grown dramatically to become a cornerstone of many undergraduate courses and curricula, and it is a particularly dynamic field for scholarly research. This book offers an accessible introduction to teaching and studying rhetoric and composition. By combining the history of rhetoric, explorations of its

underlying theories, and a survey of current research (with practical examples and advice), Steven Lynn offers a solid foundation for further study in the field. Readers will find useful information on how students have been taught to invent and organize materials, to express themselves correctly and effectively, and how the ancient study of memory and delivery illuminates discourse and pedagogy today. This concise book thus provides a starting point for learning about the discipline that engages writing, thinking, and argument. The Subtle Subtext Laurent Perrot 2021-12-07 Subtexts are all around us. In conversation, business transactions, politics, literature, philosophy, and even love, the art of expressing more than what is explicitly said allows us to live and move in the world. But rarely do we reflect on this subterranean dimension of communication. In this book, renowned classicist and scholar of rhetoric Laurent Perrot explores the fascinating world of subtext. Of the two meanings present in any instance of double meaning, Perrot focuses on the meaning that is unstated—the meaning that counts. He analyzes subtext in all its multifarious forms, including allusion, allegory, insinuation, figured speech, irony, innuendo, esoteric teaching, reading between the lines, ambiguity, and beyond. Drawing on examples from figures as varied as Homer, Shakespeare, Molière, Proust, Foucault, and others, as well as from popular culture, Perrot shows how subtext can be identified and deciphered as well as how prevalent and essential it is in human life. With erudition and wit, Perrot explains and clarifies a device of language that we use and understand every day without even realizing it. The Subtle Subtext is a book for anyone who is interested in language, literature, hidden meanings, and the finer points of social relations.
